Grinding Humiliation.

The world is duly informed by telegraph that there is little or no rejoicing in France over the departure of the German troops from French territory, and also that this manifestation of joy will be in order when, after the payment of the last one of the 5,000,000,000 francs exacted by the Emperor William as war indemnity, next September, his troops shall have left French soil forever.

It would be a marvel if a refined and cultured people could so far forget their own dignity as to call the public attention of the world to the grinding humiliation they have been made to suffer by their conquerors by any public demonstration.

It is bad enough to be compelled to pay to their conquerors such an enormous exaction, in addition to the loss of territory, as the price of their national existence. That, according to the principles of international law, the wrongful aggressor may be required to pay a pecuniary penalty for a national crime, may be admitted; but it is seldom that one of the parties to a war is so clearly and absolutely the only criminal as to justify such an exaction. And should this be admitted in this case, the good taste and wisdom of making such a levy by the victor on the vanquished party may be well questioned.

To illustrate a great event by a small one, let it be supposed that two gentlemen undertake to settle some question of honor and right by personal combat, and that after the the contest is ended the victor should demand payment of the vanquished for the powder burned by him in the fight, and damages for the time lost and money expended in traveling to the rendezvous, and any rents made in his clothes by the missiles of his antagonist! His legal right to such a recovery need not be called in question; but we are curious to know how the chivalry of our country would regard the private combatant who would make such a demand. We fear he would be incontinently expelled from refined society.

And yet this is what Germany has exacted of France, and has insulted French honor by refusing to evacuate the territory until the last franc is paid. It was not enough to require the people of France to *agree* to pay this enormous sum of money. Germany, in addition, advertises the whole world that she can not trust France to fulfill this contract, and stands over her, night and day, with a drawn sword, until the last farthing is paid! Such an indignity must be most crushing to the refined sensibilities of the people of France.—*Wash. Chronicle.*

The Boat Race.

The great college boat race, which is destined to become historic, is at an end, and Yale carries off all the prizes. The contest appears to have been very close, and for a time Harvard enjoyed the mistaken impression that she had won the university race. The decision of the umpire, however, given at a late hour and after an excited hearing, awarded the race to Yale. The result is a sore disappointment to Harvard, more so doubtless than to all the other defeated crews. Yale and Harvard are traditional rivals and out of nine previous contests Harvard came out the winner in all but two. Her present defeat will only whet her determination to try again.

The fact that the Yale crew adopted the English style of rowing will doubtless lead to the entire abandonment of the American method. The English style is described as differing from the American in being stronger in the pull through the water and slower in recovery. The absence of the extra jerk at the finish enables the Englishman to put all his force into the main work of rowing. His hands are kept separate on the handle of the oar, the knees are wide apart and the back, instead of being bent over as in the American mode, is nearly straight. It is claimed by the advocates of the English system that the strength of the rower is husbanded by the leisurely recover after the oar has left the water, while the rapid, jerky movement of the American method weakens the oarsmen at a time when he is already weakened.

The *Independence Belge* states that a Japanese prince, Macao, may be found daily in the State printing office at the Hague, working at the case. He is sent to Europe by the Japanese Government to learn the art of printing.

Secrets of the Sanctum.

The humorist of the Detroit *Free Press* observes that there is always one vacant chair in the sanctum of every daily paper, or it would be vacated for the right man. It is the position of "really-very-good-but-we-haven't-room-for-it" man. When a young man, wearing a very exultant countenance, walks into the editorial rooms with a bundle of manuscript under his arms, all the staff know what is coming. He has been writing an ode to spring, or a poem on the fast, disappearing Indian race, or five hundred verses on the power of love. It is really wonderful how sanguine he is. He has selected this particular paper as a great favor to the paper, and he is certain that the publishers won't think of offering him less than a dollar a verse, and that after they have handed him the money they will pat him on the back and say, "Go on, young man, there is a wreath of laurels for you in the future." He walks around the room a few times to collect himself, and then goes for the nearest man. He is referred to "the man in the other room," and the man in the other room heaves a sigh as he sees him enter. "Here's a few verses on springtime which I dashed off the other day," says the young man, as he deposits the roll on the table; "you can look them over, and I will call for the money Saturday." He goes out, and the recipient of the roll unrolls it, feels his hair raise up as he sees that some lines have ten "feet," others six, and that a pile-driver could not pound the metre into shape. He puts it away, and begins to dread Saturday. Saturday comes, with it the young man, who expects a check and a compliment. He sits down, and there is a long pause. The editor would rather tackle a Bogardus kicker than to say what he must say, but he finally gets around to it. "Very good—seasonable—well written—but, ah!—ahem! we haven't room for it just at present; you'd better send it to the New York *Post*." That young man gets up with an awful look of contempt and revenge on his face, seizes the roll, and goes out feeling that he shall be an enemy of the paper, the editors, reporters, compositors and apprentices forever after. This is only an illustrative case. There is the woman who has written nineteen verses on her dead baby; the old maid who has hashed up a ballad and wants to be brought out as the author; the young man in love who has written a poem on his Hannah and five or six others. Each one must be refused in such a manner as not to wound his feelings, and yet his feelings will be wounded. If he hadn't a cent in the world, and was in need of bread, he wouldn't feel half so bad to be refused a cash loan as he would to be told that his poetry wasn't first class, and that he'd better turn his atttention to a trade. The poets are not all. There is the man with the "Essay on Sober Second Thought;" the man with the two columns on "The Degeneration of American Politics," and the scores of men with essays on this and that, which no one but the writer would read. They must be met, repulsed and got rid of; and, though the editor is as tender as a lover, the chances are that within three days he will receive a letter reading something like this:

"BEAR SIR: Owing to the fact that my article on the 'Rejuvenation of Mummies' did not appear in your issue of Wednesday, you can stop my paper. I shall subscribe to the *Ark*, which is a live, go ahead daily, fully up to the times. Yours, CATO."

The destruction of human lives in India by wild animals has become so appalling that at last the English Parliament is seriously debating different plans to remedy the evil. The statements made by Lord Ettrick, who has spent much of his time in India, almost transcends belief and read like romances of the jungle and wilderness. In Lower Bengal alone, no less than 13,400 persons are known to have been killed by wild beasts in the six years immediately preceding 1870, and for the entire peninsula it is estimated that 10,000 persons are killed annually. Captain Rogers, of the Bengal service, recently read a paper before the English Social Science association, in which he stated that, in 1869, one tigress stopped the traffic on a public road for many weeks, and was known to have killed 127 people; and in Naydunka, a tiger in 1867, 1868, and 1869, killed, respectively, twenty-seven, thirty-four, and forty-seven people. It would attack a party and kill four or five at a time. Once it killed a father, mother, and three children, and the week before it was shot it killed seven people. It is stated that there are shikarries, or hunters, whose business it is to kill these animals, and who receive rewards for doing so, but they have no desire to kill off all of them and thus cut off their source of living. They, therefore, only kill enough of them to show that they are not idle and to make a living. The English government now proposes to enroll a body of men for this purpose, and to make a systematic slaughters of the tigers, wolves, panthers, leopards, and hyenas, until they are exterminated.

The Khedive is a party to the depletion of the Jardin d'Acclimation, in Paris, of its ducks. He recently sent there two large white Egyptian pelicans, which are now known to be duck poachers, one of them having been caught with two of the ducks in its maw.

A Cincinnati man is said to be training himself for his approaching marriage by passing several hours every day in a boiler shop.

An eighteen year old girl in Cincinnati has had six thousand photographs taken of her. Think of the number of negatives from one so young.

The French are vexed to find that their pepper has been greatly adulterated of late.

Men and Women in Summer.

Meet a fellow man when the thermometer is up among the nineties, and you see him moping the sweat from his face, digging the dust from his eyes, his paper collar wilted, linen coat streaked with sweat, and he exclaims, "Hot!—Why, I never say such weather!" He tells you how the rubber in his suspenders has melted and run together: how he could wring pints of water from his clothing, how he has lost five pounds of flesh in ten days; how the sun has crisped his boots and ruined his eyesight, and he starts off with the remark, "Never saw anything like it." Now meet a lady, and what do you see? Clean white dress dainty collar, jaunty tie, hair nicely combed, eyes bright and smiling, no dust—everything as tidy and orderly as if the weather was October. She does'nt hurry a bit, stops now and then right in the sun, cuts the air with her parasol as if she had no use for it, and always manages just to escape the furious cloud of dust coming up or down the street. There are no inquiries about the state of the thermometer, no longing looks at soda-water signs and ice wagons, and no application of the handkerchief. She does not hurry, does not dash for the shade of a six foot awning, and hang to the spot, waiting for a cloud to pass over the sun, and when she takes a car it seems to matter little whether all the windows are up or whether they are down. How on earth do they manage it?

It is difficult to say in what sphere woman would not succeed if she had an equal chance with the rest of mankind. After the male detectives had hunted New York inside out in search of the Goodrich murderer, the cass was turned over to a woman and the murderess was soon found.

A Vermont paper says a young lady from the country called at a bookstore the other day and asked for "a deck of them new postal keerds—double headers."

A Connecticut farmer, who set out an elaborate scarecrow in his strawberry patch, was disgusted to find that a pair of robins had built their nest, and were raising their young under its hat.

IN THE future all the horses attached to the street cars will be belled. The 3d car is the only one that runs to the depot.

S. HANSTEIN & Co, New York House, 5 Market street, are offering their entire stock of drygoods, clothing, boots and shoes, at New York cost. 1m

A LARGE fine dray horse, the property of Capt. Geo. Sloan, broke his thigh yesterday afternoon, while crossing the track at the old depot. The animal is lying near where he fell writhing in pain.

THE only chance of getting a suit of clothing, shoes, shirts, &c., at New York cost, is to go to

S. HANSTEIN & Co's,
New York House,
1m 15 Market street.

WE ARE glad to see that the railroad company is boading in the street between the various tracks at the old depot. This has long been needed, and draymen can now go over the track with heavy loads without endangering their drays.

THE cheapest stock of dry goods to be found this side of New York is at

S. HANSTEIN & Co's.
New York House,

NOMINATIONS in Cape Fear Township:

For Magistrates—H. E. Scott and Murphy Ward.

For Clerk—Samuel Robinson.

For Constable—Wm. Moore.

For School Committee—H. E. Scott Isaac Hines and Wright Dixon.

TO MAKE room for a large Fall stock we have reduced our prices, and are now selling our entire stock cheaper than the cheapest.

A NEWSPAPER, to be called the *Christian Age*, the first number of which will be issued in New York next week, is to be under the skillful editorial management of Charles F. Deems, D. D., a member of the North Carolina Methodist Episcopal Conference, and pastor of the Church of the Strangers in New York city. A just and discriminating compliment to one of North Carolina's most gifted sons.

REPUBLICAN MEETING IN CASWELL.—At a meeting of the citizens of Caswell township at Point Caswell, on Saturday the 19th inst., for the purpose of nominating township officers, Messrs. Chad. Moore, Dr. G. F. Lucas, E. A. Hawes, Jr., J. W. Colvin, Henry Bagley, John Newkirk and Archie Shaw were appointed a committee to make nominations to the meeting.

After consultation the committee returned and reported the following:

For Magistrates—John Moore, James Thompson.

For Clerk—James N. Henry.

For Constable—Ephraim Hawes.

For School Committee—C. V. Hines Marion Moore and Hardee Anderson.

On motion, the above ticket was unanimously adopted and the meeting adjourned.

J. R. HINES, Chairman.
JOHN MOORE, Secretary.

HANDSOME CAR.—We were shown this morning by Capt. James E. Wilson the handsomest sleeping car we have ever seen. It has lately been put on the track, and runs between this city and Richmond. It is so arranged in regard to warmth in the winter that one can always be comfortable, a heater with pipes running under each seat. The berths are wider than those in the old cars, and each are provided with a fine mirror. The handles to the seats are made of German silver, and are very pretty and attractive. The car is provided with every modern improvement and we are informed that others will be placed on the route at an early date.

Two men named Mills and Edwards living in the lower portion of Pitt county, some days ago got into a difficulty and one night last week Mills went to Edwards' house and filled his arm with buckshot.

OTTO SCHUTZE,
Observer, U. S A.

IN THE future all the horses attached to the street cars will be belled. The old car is the only one that runs to the depot.

S. HANSTEIN & Co, New York House 15 Market street, are offering their entire stock of drygoods, clothing, boots and shoes, at New York cost. 1m

A LARGE fine dray horse, the property of Capt. Geo. Sloan, broke his thigh yesterday afternoon, while crossing the track at the old depot. The animal is lying near where he fell writhing in pain.

THE only chance of getting a suit of clothing, shoes, shirts, &c., at New York cost, is to go to

S. HANSTEIN & Co's,
New York House,
1m 15 Market street.

WE ARE glad to see that the railroad company is loading in the street between the various tracks at the old depot. This has long been needed, and draymen can now go over the tract with heavy loads without endangerin their drays.

THE cheapest stock of dry goods to be found this side of New York is at

S. HANSTEIN & Co's.
New York House,
1m 15 Market street.

NOMINATIONS in Cape Fear Township:

For Magistrates—H. E. Scott and Murphy Ward.

For Clerk—Samuel Robinson.

For Constable—Wm. Moore.

For School Committee—H. E. Scott, Isaac Hines and Wright Dixon.

TO MAKE room for a large Fall stock we have reduced our prices, and are now selling our entire stock cheaper than the cheapest.

S. HANSTEIN & Co.,
New York House,
1m 15 Market street.

A NEWSPAPER, to be called the *Christian Age*, the first number of which will be issued in New York next week, is to be under the skillful editorial management of Charles F. Deems, D. D., a member of the North Carolina Methodist Episcopal Conference, and pastor of the Church of the Strangers in New York city. A just and discriminating compliment to one of North Carolina's most gifted sons.

REPUBLICAN MEETING IN CASWELL.—At a meeting of the citizens of Caswell township at Point Caswell, on Saturday the 19th inst., for the purpose of nominating township officers, Messrs. Thad. Moore, Dr. G. F. Lucas, E. A. Hawes, Jr., J. W. Colvin, Henry Bagley, John Newkirk and Archie Shaw were appointed a committee to make nominations to the meeting.

After consultation the committee returned and reported the following:

For Magistrates—John Moore, James Thompson.

For Clerk—James N. Henry.

For Constable—Ephraim Hawes.

For School Committee—C. V. Hines, Marion Moore and Hardee Anderson.

On motion, the above ticket was unanimously adopted and the meeting adjourned.

J. R. HINES, Chairman.

JOHN MOORE, Secretary.

HANDSOME CAR.—We were shown this morning by Capt. James E. Wilson, the handsomest sleeping car we have ever seen. It has lately been put on the track, and runs between this city and Richmond. It is so arranged in regard to warmth in the winter that one can always be comfortable, a heater with pipes running under each seat. The berths are wider than those in the old cars, and each are provided with a fine mirror. The handles to the seats are made of German silver, and are very pretty and attractive. The car is provided with every modern improvement, and we are informed that others will be placed on the route at an early date.

Two men named Mills and Edwards, living in the lower portion of Pitt county, some days ago got into a difficulty, and one night last week Mills went to Edwards' house and filled his arm with buckshot.

Mayor's Court.

His Honor W. P. CANADAY, Mayor, presiding.

W. DANIELS, for insulting officer Walcot, was found guilty. judgment suspended on payment of costs.

A person, for selling liquor on Sunday, was required to pay the costs.

WILLIAM ARTIS, for being drunk on the street, was required to pay $10 and costs.

ALLEN JAMES, charged with disorderly conduct and being drunk on the street, was required to pay the costs.

WE commend the following to those members of the Carolina Yacht Club who may feel interested:

"A sea faring man, who was recently married, gives the following description of the bride and her apparel, which we think will put some of the 'society' papers to blush: My wife is just as handsome a craft as ever left the millinery dry docks, is clipper built, and with a figure head not very often seen on small craft. Her length of keel is five feet eight inches, over all five feet eleven inches, displaces twenty seven cubic feet of air; of light draught, which adds to her speed in a ball room; full in the waist, spars trim. At the time we were spliced she was newly rigged fore and aft, with standing rigging of laces and flowers, mainsail part silk, with forestaysail of Valenciennes. Her frame was of the best steel, covered with whalebone stancheons. This rigging is intended for fair weather cruising. She has also a set of storm sails for rough weather, and is rigging out a small set of canvass for light squalls, which are liable to occur in this latitude sooner or later. I am told, in running down the street before the wind, she answers the helm beautifully, and can turn around in her own length if a handsomer craft passes her."

BANK OF NEW HANOVER—STOCKHOLDERS' MEETING.—Pursuant to call of the Directors, the Stockholders of the Bank of New Hanover assembled at their banking house last evening at 8 o'clock.

The meeting was called to order by the President, I. B. Grainger, on whose motion Donald McRae was called to the chair, and Wm. H. Bernard was requested to act as Secretary.

John W. Hinson and the Secretary were appointed a committee to verify proxies and ascertain the number of shares represented in person and by proxy. They reported 2,774 shares represented in person and 1,510 by proxy; whereupon the Chairman declared the meeting duly organized and ready for business.

The President being requested to explain the object of the meeting, stated that it was for the purpose of authorizing an increase of the capital stock of the Bank, and gave a brief but highly satisfactory account of the condition of the institution.

Major Charles M. Stedman offered the following resolution, which was unanimously adopted:

Resolved, That the Board of Directors are hereby authorized to re-open books of subscription to the capital stock of the Bank, and issue one hundred thousand dollars additional, on the basis of 12 per cent. premium; such stock to be issued August 1st, after the payment of the regular semi-annual dividend.

There being no further business, the meeting adjourned.

DONALD McRAE, Chairman.
WM. H. BERNARD, Secretary.

The Size of the Sun.

Secchi, the astronomer of Rome, has concluded, from certain observations made during the past year, that he is justified in affirming that there is a periodic variability in the size of the sun. The many startling revelations of science during the past ten years have prepared the way for the acceptance of even this conclusion, though the observations on which Secchi founds his belief are as yet so few as to still leave room for some possible doubt on the subject. It would seem that the outer surface of the sun—the photosphere as seen by us—is a gaseous envelope in a state of continual and perhaps periodic change, such that the diameter of the solar orb, as measured by the aid of the telescope, is least in the region of the greatest spot activity; that is, the solar equatorial belt does not bulge out as does that of the earth, but, on the contrary, the solar polar axis is the longest diameter of that body. The excess of the polar over the equatorial diameter is, however, a very small quantity, and may be referred either to tides in the photosphere or to the influence of the solar spots themselves.

A Boston jeweler has on exhibition what he claims to be the largest diamond in the United States. It weighs thirty two karats, and has a yellow tinge.

A "honey-moon car" is now on the Pacific railway for the purpose of bridal parties. It has a comely as well as honeycombly appearance; is full of sweets and full of sells.

A scientific friend, who has been reading with patience an exhautive treatise on the "velocity of light," says he now knows how it is that his gas bills run up so rapidly.

STATE ITEMS.

IN Wilson county corn and cotton are doing well.

A LODGE of colored Good Templars has been organized at Charlotte.

A DESTRUCTIVE hail storm passed over portions of Edgecombe and Halifax counties some days ago.

SPONTANEOUS combustion destroyed $500 worth of rags for W. & R. Tiddy in a car at Lincolnton the other day.

MOSES DARDEN, a colored employe on the Wilmington and Weldon Railroad, was killed at Wilson a few days since while attempting to jump from the gravel train.

MRS MAHALA BARNES, an estimable lady of Wilson county, a few days since fell out of a window and injured herself so badly that death ensued on the following afternoon.

Two petitions were received at the Governor's office on Saturday, one from the citizens of Beaufort county, and the other from the citizens of Craven, asking the commutation of the death sentence of Hardy Jones, an old colored man, convicted of murder, to imprisonment for life.

THE Raleigh *Sentinel* says: Last year about this time, and before, when the *Sentinel* had the public printing, several newspapers in the State raised a great hue and cry about our failure to have the work done within the time prescribed by law. This year we have heard no complaint from any quarter, and yet the public printer is behind with the laws ninety odd days. To which the POST would say that the laws of 1872-'3 have been delivered to the proper persons in New Hanover county more than a month ago.

IN the Supreme Court on Saturday last the following cases were argued:

Benijah Taylor and wife vs C J Dudley *et al*, Craven. J H Haughton and Battle & Sons for plaintiffs, and George Green for defendants.

S W Latham, Ex'r, *et al*, vs H P Whitehurst, Craven. J H Haughton for plaintiffs, and A G Hubbard for defendant.

Henry Reiger vs the Commissioners of the town of Beaufort, Carteret. J H Haughton, A G Hubbard and Battle & Son for plaintiff, and George Green for defendants.

B F Moore vs W H Shields, adm'r, *et al*. B F Moore for plaintiff, and John Gatling, Batchelor, Edwards & Batchelor for defendants.

THE Goldsboro *Standard* says: "An employe on the Wilmington & Weldon Railroad, Whitfield by name, met with an accident on Tuesday afternoon, not far from this city, which came very near terminating his life. While engaged in excavating an embankment a portion of the earth gave way, burying the unhappy man from view, and causing internal injuries of a violent nature. He was immediately transferred to this place, and removed to the Infirmary of Dr. J. M. Hunter, where he remains at present. We learn, on the eve of going to press, that Whitfield is dead."

THE *State Agricultural Journal* in its issue of the 19th inst., says: "In the construction of the buildings on the new Fair Grounds, in the grading of the track, the building of culverts, etc., the Building Committee are making rapid headway. *All the buildings* have been commenced, some of them are finished and the painting on these will be commenced in a few days. The buildings are going up under the immediate superintendence of Mr. Jacob S. Allen & Co., of this city. Mr. A. is an energetic, skillful builder, and is doing his duty faithfully. He is ably assisted by Mr. T. A. Kingsley. A large force is at work on the race track, under the superintendence of Mr. James D. Royster, of this city, who has had considerable experience in managing large gangs of workmen. The work progresses favorably, and when finished we shall have the best half mile race track in the country. It is being constructed in the most substantial manner, of the best material and on the latest and most approved plan. In short, the Executive Committee are determined that the Fair Grounds of the North Carolina Agricultural Society shall be second to none in America, and shall form one of the handsomest parks in the country."

NEW YORK.

NEW YORK, July 22.

There is much gossip regarding the Brooklyn Trust Company. The real estate agents of Mr. Mills do not credit the suicide theory. Mills had arranged with them the evening before his death for the completion of some buildings—he was as cheerful as usual.—Mill's income from real estate, which these agents managed, was $40,000 per annum.

Regarding the Georgia bonds held by the institution, Secretary Rodman said to-day that various eminent New York firms held the Georgia bonds, and that the Broadway bank holds $300,000 worth of them. He believes that the company will pay every dollar it owes to depositors without calling on the stockholders. The assets were reasonably good, though some of the securities were slow. The assets of the company amount to $2,899,859; the amount due depositors is $2,300,000.

A. T. Stewart made his will before sailing for Europe. It shows him worth $100,000,000.

It is stated that the Congressional Committee on Transportation has issued a circular to the State Granges of Husbandry throughout the country, asking them to appoint delegates to meet the committee and furnish information on the subject which they are investigating, and present the views of the farmers of the different States in regard to the defects and abuses alleged to exist under the present system of transportation.

WASHINGTON.

WASHINGTON, July 22.

Attorney General Williams to-day transmitted to acting Secretary of State Davis his official opinion in the case of Carl Voght, a Prussian citizen, charged with murder, robbery and arson, committed in Brussels, and now a fugitive in the United States. The Attorney General, in a lengthy opinion, reviews all the facts in the case, and matters pertaining to the surrender of fugitives under the treaty with Germany of June 16th, 1852. After a careful consideration of all the points, he decides that the Government has no right to surrender the fugitive under the provisions contained in that treaty.

CUBA.

Prospectus for 1873.

SIXTH YEAR.

THE ALDINE,

An illustrated monthly journal, universally admitted to be the handsomest periodical in the world. A representative and champion of American taste.

NOT FOR SALE IN BOOK OR NEWS STORES.

THE ALDINE, WHILE ISSUED WITH all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light and graceful literature, and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any shape or number of volumes, for ten times its cost, and then there are the chromos besides!

ART DEPARTMENT.

Notwithstanding the increase in the price of subscription last fall, when THE ALDINE assumed its present noble proportions and representative character, the edition was more than doubled during the past year, proving that the American public appreciate, and will support, a sincere effort in the cause of Art. The publishers, anxious to justify the ready confidence thus demonstrated, have exerted themselves to the utmost to develop and improve the work; and the plans for the coming year, as unfolded by the monthly issues, will astonish and delight even the most sanguine friends of THE ALDINE.

The publishers are authorized to announce designs from many of the most eminent artists of America.

In addition THE ALDINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success and greatest general interest, avoiding such as have become familiar through photographs, or copies of any kind.

The quarterly tinted plates, for 1873, will reproduce four of John S. Davis' inimitable child-sketches; appropriate to four seasons. These plates, appearing in the issues for January, April, July and October, would be alone worth the price of a year's subscription.

The popular feature of a copiously-illustrated "Christmas" number will be continued.

To possess such a valuable epitome of the art world, at a cost so trifling, will command the subscriptions of thousands in every section of the country, but as the usefulness and attractions of THE ALDINE can be enhanced, in proportion to the numerical increase of its supporters, the publishers propose to make "assurance doubly sure" by the following unparalleled offer of

PREMIUM CHROMOS FOR 1873:

Every subscriber to THE ALDINE, who pays in advance for the year 1873, will receive without additional charge a pair of beautiful oil chromos, after J. J. Hill, the eminent English painter. The pictures entitled "The Village Belle" and "Crossing the Moor" are 14x30 inches—are printed from 25 different plates, requiring 25 impressions and tints to perfect each picture. The same chromos are sold for $30 per pair in the art stores. As it is the determination of the conductors to keep THE ALDINE out of the reach of competition in every department, the chromos will be found correspondingly ahead of any that can be offered by other periodicals. Every subscriber will receive a certificate, over the signature of the publishers, guaranteeing that the chromos delivered shall be equal to the samples furnished the agent, or the money will be refunded. The distribution of this grade, free to the subscribers of a $5 periodical, will mark an epoch in the history of art, and considering the unprecedented cheapness of the price for THE ALDINE itself, the marvel falls little short of a miracle, even to those best acquainted with the achievements of inventive genius and improved mechanical appliances. (For illustrations of these chromos see Nov. issue of THE ALDINE.

THE LITERARY DEPARTMENT

will continue under the care of Mr. Richard Henry Stoddard, assisted by by the best writers and poets of the day, who will strive to have the literature of THE ALDINE always in keeping with its artistic attractions.

TERMS:

FIVE DOLLARS per annum, in advance, with oil-chromos free.

THE ALDINE will hereafter be obtainable only by subscription. There will be no reduced or club rate; cash for subscription must be sent to the publishers direct, or handed to the local agent, without responsibility to the publishers, except in cases where the certificate is given, bearing the fact-simile signature of Jas. Sutton & Co.

THE NEW YORK WEEKLY TIMES

Will contain Selected Editorials from the Daily Times; General News, Domestic and Foreign; The Proceedings of Congress and the State Legislatures; Full and Interesting Correspondence; Book Reviews; The Choicest Literary Selections; while its most prominent feature will be a COMPLETE AGRICULTURAL DEPARTMENT, with original articles from practical farmers; full reports of the American Institute Farmers' Club; complete weekly market reports; financial, domestic produce, live stock, dry goods and general.

AS A FAMILY PAPER,

The TIMES will have no superior; it will be free from all appeals to vulgar and impure tastes, and may be safely admitted to every domestic circle.

AS A REPUBLICAN JOURNAL,

The TIMES will be devoted, as in the past, to an intelligent and firm support of the Republican Party. Its course in reference to the Tammany Ring, at a time when all the other daily papers in New York obstructed and discouraged its efforts, attests its sincerity in the cause of Reform. The TIMES stood alone in demanding Reform from 1869 to the close of 1871, and there is no sincere and honest proposal for Reform, in any branch of the Government, which will not be heartily supported by the TIMES. But it will not conspire in assisting ambitious politicians or demagogues to reach power under false pretenses. It will not encourage defection from the Republican Party, which is still the party of progress, security and national prosperity.

It will sustain, with all the force and influence at its command, the principles and policy which have rendered that party so justly famous in our history. It will advocate those measures by which the honor, the peace, and the prosperity of the nation can be best secured and promoted, and will constantly study the wants of the people rather than the wishes of the politicians.

THE NEW YORK SEMI-WEEKLY TIMES

Is published every Tuesday and Friday, and contains all the agricultural and literary matter of the Weekly edition, and a full and careful compilation of editorial and news features of the Daily.

Terms of the Semi-Weekly TIMES: One copy, one year, $3; two copies, one year, $5; ten copies, one year, $25—and one extra copy free.

Subscriptions to either of our editions received for a less length of time than one year at yearly rate.

These prices are invariable. Remit in drafts on New York or Post-office Money Orders, if possible, and where neither of these can be procured, send the money in a registered letter. All Post-masters are obliged to register letters when requested to do so, and the system is an absolute protection against losses by mail. Address

We especially call the attention to the following testimonials of the Paint:

C. P. Knight, Esq.—Dear Sir: I have used Bradley's Patent Enamel Paint on my dwelling last Spring, and am much pleased with it, and it looks as well now as when first painted, and consider it a good Paint. Yours, truly,

Creswell P. O., Hartford county, Md., Feb. 6th, 1873. A. H. STRASBAUGH.

THE PLAINS, FAUQUIER CO., VA., Feb. 6th, 1873.

Mr. C. P. Knight—Sir: The Paint came safely to hand as ordered—two kegs, five gallons each, and three buckets, one gallon each. As practice was slack, I did the job myself. Two weeks, (not constant work,) completed the house two coats. The last coat I applied thick, and it is now generally conceded that for enamel-like hardness, and body, and harmony of colors, there is not a handsomer job in the place. I saved sixty-five dollars by the operation, which is an item just now with Southern people. It should be generally adopted in this State. Any country lad can apply it. I have never dabbled in such stock as testimonials, but I feel so forcibly the great adaptability of your "Enamel Paint" to the wants of our people, in excellency of material, in beauty of color, and in the fact of its being "ready mixed" that I give you free permission, (if it is desirable to you,) to make what use you think proper of this letter.

Very respectfully and truly,

S. McGILL, M. D.

TO THE PUBLIC—It affords me much pleasure to state that in July, 1871, Front Street Theatre was painted inside and out with "Bradley's Patent Enamel Paint," for which C. P. Knight, No. 93 West Lombard Street, is agent, and, to testify to its superiority over any and all other paints for similar uses. In no private dwelling can paint possibly be subjected to the very severe test it undergoes at this establishment, where, during our daily cleaning, soap and soda are constantly applied to it, and yet it appears as sound and fresh as when put on. Of the numerous advantages it possesses over other paints, I will only mention its being mixed and ready for use in quantities to suit purchasers, its quickly drying properties, which saves much time in the execution of work were paint is needed, and its very perceptible tenacity, which imparts beauty and durability to the objects on which it is used. As such I most earnestly recommend it to the merchants and tradesmen of our city, believing it will give them greater satisfaction than they can possibly anticipate.

WM. E. SINN,
Front Street Theatre.

BALTIMORE, April 25, 1873.

CHAMBERSBURG, December 10th, 1872.

Mr. C. P. Knight—Dear Sir:—The paints we received from you have been applied to several of our own buildings and to those of our friends, and have given entire satisfaction in covering qualities, in gloss, and in adaptability to all kinds of surface of material and we cheerfully recommend it, especially to that class of consumers who have to depend upon unknown parties, or painters to mix and furnish materials, wherein we have found the most deception.

Yours, truly,
JACOB STOUFFER & SON.

FROM HON. JOHN WETHERED.

Mr. C. P. Knight:—At the recommendation of a friend, I was induced to apply your patent "Bradley's" paint to my house. I have pleasure in stating that it has proved highly satisfactory, covering more surface than you promised, is more economical, carries better gloss than ordinary paint, and is freer from disagreeable odor.

Yours, Respectfully,
JOHN WETHERED.

BALTIMORE, December 27th, 1871.

C. P. Knight, Esq., Agent for Bradley's Patent Enamel Paint—Dear Sir:—The paint we purchased from you we will cheerfully endorse as the best of any kind we have ever used; its covering qualities is everything desired, drying promptly and with a hard gloss which must, we think, resist the action of all kinds of weather. This is our experience, and we can recommend it with certainty, and intend to use it on all occasions where we desire a good job of work.

Very Respectfully,
EMART & QUARTLEY, 270 W. Baltimore St.
House, Sign and Frescoe Painters.

PLEASANTVILLE, HARTFORD CO., MD.

Mr. C. P. Knight—Dear Sir:—I am very happy to inform you that your "Patent Enamel Paint" has given entire satisfaction. I prefer it to any paint I have ever seen used, and recommend it for durability and beauty as paramount to any other.

Very Respetfully,
R. DICKEY, M. D.

Harper's Magazine.

NOTICES OF THE PRESS.

The ever-increasing circulation of this excellent monthly, proves its continued adaptation to popular desires and needs.—Indeed, when we think into how many homes it penetrates every month, we must consider it as one of the educators as well as entertainers of the public mind, for its vast popularity has been won by no appeal to stupid prejudices or depraved tastes.—*Boston Globe.*

The character which this Magazine possesses for variety, enterprise, artistic wealth, and literary culture that has kept pace with, if it has not led the times, should cause its conductors to regard it with justifiable complacency. It also entitles them to a great claim upon the public gratitude. The Magazine has done good and not evil all the days of its life.—*Brooklyn Eagle.*
